Using a working set limited to 1650 pages and 815 pages of data storage (excluding image)

Total number object records read (both passes): 2262  
of which 1057 were in libraries and 47 were DEBUG data records containing 3705 bytes

Number of modules extracted explicitly = 24  
with 6 extracted to resolve undefined symbols

27 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
